DRAGEE (TASTELESS) FORM.

THE NEW FRENCH REMEDY

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Johert, Velpeau and others, combines all the des'derata to be sought in a medicine of the kind, and surpasses every-

thing hitherto employed.

THERAPION No. 1 love reably short time, often a few days only, removes all discharges, effectually superseding injections, the use of
which does irreparable harm by laying the foundation of
stricture and other serious diseases. In dysentery, piles,
fritation of the lower bowel, cough; broughtle, authora,
and some of the more trying complaints of this kind, it
will be found astonishingly efficacious, affording prompt
relief where other well-tried remedies have been powerless.

THERAPION NO. 2 for interest blood, scurry, pimples, spots, blotches, pains and swel-

ling of joints, secondary symptoms, gout, sheumation, and all diseases for which it has been too much a fashion

to employ mercury, sarsaparilla, &c., to the destruction of sufferors' tooth and rule of health. This preparation purifies the whole system through the blood, and the roughly climinates all poisonous matter from the body.

THERAPION NO. 3 for exting, sleeplessness, and all distressing consequences of the consequences of the

dissipation, worry, overwork, early error, excess, &c. At possesses surprising power in sestoring strength and vigour to those suffering from enervating influences of long residence in bot, unbeating climates.

THE QUEUK-CUITING CAMPAIGN.

In many quarters, there still prevails a good deal of scepticism with regard to the reality of the Reform movement in China, or rather one should say amongst the Chinese nation, for they are a widely scattered birthday. people like the ancient Jews or the more modern Britons, founding communal bodies in whichever country their adventuresomeness may lead them. But if one thing more than another goes to prove the change of sentiment that is tending to alter the des tinies of China by demolishing the barriers which stood between her and the progressiveness of the world in general, it is the three men he' hard labour and fiur hours movement that can best be described as stocks for the larceny of clothing from a house "the queue-cutting campaign." There is no In Kowloon City. dubiety about the enthusiasm with which this campaign is being followed up. It is an indisputable fact that there is no people more adaptable than are the Chinese to the manners and customs and life of the foreign countries to which they are constantly finding their way. As a rule the Chinese are ruled by the precept, "When in Rome do as the Romans do." And no doubt it is this very | season. adaptability that has led countless thousands of them settled in the United States, Mexico, Southern America, Austra'asia and the Federated Mal y States to discard the queue. If we'remember aright, it was Dr. Seisions were also issued to-di y. Arthur Smith, in his "Chinese Characteristics," who declared pithily that the peo ple of China never could advance until they practice of shaving the head. It is rather | S. Sergt. Glddy will act as rele ee. a trite remark, containing far more than meets the eye. It is striking because it shows that such a keen observer as Dr. Smith regards a change of style in the man- in his possession. His Worship ordered the future. ner of wearing the hair an essentiality. defendant to pay a fine of \$50 y or, in default, if the Reform movement is to progress at all The late Chinese Minister to Washington not long ago forwarded to the Throne ar earnest appeal from his countrymen in the Americas praying that an Imperial Decree be issued to authorise the cutting of the queue by Chinese subjects resident in foreign lands. So far no such Decree has been promulgated, yet the receipt of such a pet tion surely must have some effect upon the most callous and case hardened reactionary

patricians return from their studies abroad they are bound to carry with them new ideas and new views absorbed during their journeyings in countries overseas. So far, we have not learned of any high Imperial official daring to bring down upon himself the Celestial wrath by cutting off his queue in defiance if the displeasure, and probably distrace, that would follow upon any such action, but it is no secret that the Reform Party numbers amongst its ranks several high dignitaries who stand very near the Throne and the forward march of the Reform Party will surely bring an extension of the queuecutting campaign. The custom is not yet much in vogue in the interior of China; Infact, it is held in so much disregard in the way-back provinces of Shansi and Shensi that the white missionaries deem it not only advisable but essential to personal safety to wear a queue, either natural or artificial. Put all along the coast and in other dountries where the Chinese come immediately within the sphere of foreign influences, it has taken a firm hold and is widening in scope from day to day. In Hougkong, we have abundant evidences of this fact. Here the movement has taken concrete shape in the formation of the fze-Yip Ouducless Society, which already has ly gaining recruits to its ranks. Under its auspices, no less than three thousand five hundred and forty-two members have become queueless. No later than Sunday last we had the remarkable spectacle of a procession of queueless men-who had just had their queues cut off marching quietly through the principal streets west of the Central Market in vindication of their right to wear their hair as they like. As a resulof the enthusiasm aroused on that occasion, it is estimated that no less than eight-hundred members discarded their queues. was a silent, sedate, orderly procession, with out accompaniment of trumpet, gong or trumpet; and as such it was highly impressive. It was emblematic of the spirit of Reform that has at last awoke in this great Empire of the East. As we mentioned the other day, there are to be similar doings in Manila on the 25th inst., so that the ball seems to have been set a rolling right merrily. By the way, rather an amusing incident in this connection is recorded by the "Cheloo Morning Post." It appears that several young men who contested for honours at the recent athletic meeting at Nanking cut off their queues in preparation for the contest. It would be infra dig. to wind their queues about the head like a coolie, and as they were in the way they came off. One young man, who made the
